Response to Lewis and DeFeo 11 17 16.pdf

Jim,

Attached is a letter we sent today to the legal team representing the resident who claims to have thorium in samples collected from the home. To date, we have only seen a summary data table. We are requesting the complete data package for review. We are also beginning to develop a sampling plan to conduct sampling in the area. Reviewing the data referenced in the lawsuit will help inform our sampling plan.

Today we also spoke by phone with the Just Moms leaders who are holding a community meeting tonight. We are providing them a statement to read at the meeting. I will forward that as soon as we have it prepared.

I have made several calls to local stakeholders including the Mayor of Bridgeton, St Louis County Emergency Manager, and two school district superintendents.

Please call if you have any questions.

Mary P. Peterson, Director
